

Technology No. 31

FISH DRYING RACK

Inventors: Dr. B. B. Nayak, Mrs. Ajita Ghag and Dr. Arpita Sharma

Division: Fisheries Resources, Harvest and Post-Harvest Technology Division

Technical details :

The invention relates to a portable, foldable, fish drying rack having extendable panels laterally extending on opposite sides of the central panel of the rack for hygienic drying of fish. It provides a fish drying rack having tenfold expandable area, which can be employed for drying fish by spread drying as well as hanging. Yet another object of the invention is to provide a portable fish drying for small scale drying as well as for drying during the monsoon period when sunshine intervals are short. In accordance with the preferred embodiment, the 'CIFE fish drying rack' is constructed using Burma Teak Wood (BTC) wood, and has a total length of 15'6" and a height of 3'1".

Fish drying rack demonstration in Arnala, Virar

Granted Patent No.: IN326749 on 4th December, 2019
