CELL BIOLABS, INC.
Creating Solutions for Life Science Research

ViraSafe™ Lentiviral Packaging System, Ecotropic (Cat# VPK-205)

Cell Biolabs' ViraSafe™ Lentiviral Packaging System provides a much safer method to package lentivirus, while still providing high viral titers. In addition, each plasmid is provided separately rather than in a packaging mixture. This allows you the flexibility to amplify individual plasmids and optimize the ratio of plasmids for your experiment.

Key Features:

1. Packaging Plasmids: Improve the packaging plasmid to increase performance and reduce the likelihood of recombination between vector components.
   a. Minimize HIV sequences – no accessory proteins, Tat or Rev, or LTRs
   b. Prevent overlap with vector SM by codon wobbling Gag sequences
   c. Boost particle production by incorporating adenovirus VAI element

2. Flexible: All vectors including packaging vectors are provided separately to allow end-user to optimize the vector ratio for maximal lentivirus production.

CELL BIOLABS, INC.
Creating Solutions for Life Science Research

Cell BioLabs, Inc. - USA

www.cellbiolabs.com

Cell Biolabs, Inc. proudly develops novel assays and reagents to advance cell and molecular biology. There are scientists driven by a devotion to discovery and innovation, and they work hard every day to find new ways to streamline life science research. You should trust them for their Cell-Based Assays, Viral Expression Systems, Oxidative Stress Assays, Pathogen and Toxin Assays, or reagents for Cell Signalling, Stem Cell Research, Metabolism Research, or miRNA analysis, They can also help you with experimental design, assay protocols, and data analysis.

We, Pro Lab Marketing are authorized Indian distributor to market and distribute the products offered by Cell BioLabs for the entire Indian territory. Please visit Cell BioLabs website *www.cellbiolabs.com* for the product details, or write to us at *info@prolabmarketing.com*.

A series of useful tools of Cloud-Clone Corp. for Obesity research

The Obesity related bio-markers and corresponding catalog numbers of the kits

The common used bio-markers are inflammation related bio-markers, for instance, IL6, Adiponectin, Leptin, etc, and oxidative stress related bio-markers, for instance, oxLDL, PPARg, MCP1, etc. Cloud-Clone Corp. has developed a series of quantitative ELISA kits for the detection of obesity related bio-markers, these products include kits for detection of 30 kinds of different bio-markers in early obesity, and a series of recombinant proteins and antibodies corresponding to these bio-markers.

Cloud-Clone Corp.

Cloud-Clone Corporation - Wuhan

www.cloud-clone.com

Cloud-Clone Corp., a molecular biology and immunology research and experimental development oriented company headquartered at 1304 Langham Creek Dr, Houston, focus on preparation of assay reagents, manufacturing of analysis equipments and service of animal experiments.

Their assay reagents, covering from genes to proteins, include cDNA libraries, Primers, Proteins and DNA Marker, Natural and Recombinant proteins (prokaryotic, yeast or eukaryotic system), Monoclonal and Polyclonal antibodies, Target gene clone Kits, ELISA and CLIA Kits. Their products involve a variety of areas containing Cytokine, Signal transduction, CD & Adhesion molecules, Enzyme & Kinase, Metabolism, Endocrinium, Innate immune, Reproduction immune, Infection immunity, Tumor immune (Apoptosis, Tumor Marker), Autoimmunity, Immunomodulator, Circulatory system (Cardiac Marker), Hematological system, Small molecule (Hormone) and much more.

Their analysis equipments include smart microplate washer, smart microplate reader, automatic chemiluminescence immunoassay analyzer, etc.

We, Pro Lab Marketing are the authorized Indian distributor of Cloud-Clone Corporation - Wuhan, for the entire Indian territory. Please visit the Cloud-Clone Corporation Wuhan website www.cloud-clone.com for the latest & comprehensive list of products and product details, or write to us at info@prolabmarketing.com.

PRODUCT INDEX

- ELISA Kits for General Species 294
- ELISA Kits for Human 294
- ELISA Kits for Mouse 302
- ELISA Kits for Rat 306
- ELISA Kits for Cattle (Bovine) 309
- ELISA Kits for Dog (Canine) 310
- ELISA Kits for Pig (Porcine) 310
- Miscellaneous 310

Pro Lab Marketing is here to serve you with complete dedication to deliver top quality products in the best possible manner.

All the above Kits are of 96 Tests

Place your order & inquiries at info@prolabmarketing.com or call +91-11-6660 7725

COSMO BIO CO., LTD.
Inspiration for Life Science

Cosmo Bio Co. Ltd. - JAPAN

www.cosmobio.co.jp

Cosmo Bio Co. Ltd. - Japan offers wide range of research reagents and research instruments to worldwide customers. Cosmo Bio supporting and inspiring the Japan life science research community for over 25 years, is a leading supplier providing excellent customer service.

Cosmo Bio Ltd. with over 3,000,000 available products, including the very latest to market, supports customers across the entire spectrum of life science research fields and researcher interests.

We, Pro Lab Marketing are the authorized Indian distributor of Cosmo Bio Co., for the entire Indian territory. Please visit the Cosmo Bio Co. website *www.cosmobio.co.jp* for the latest products & product details, or write to us at *info@prolabmarketing.com*.

PRODUCT INDEX

- ELISA Kits 312
- Bio - Active Substances 312
- Cell / Tissue Culture Products 332
- Detection & Measurement Products 332
- Monoclonal Antibodies 334
- Polyclonal Antibodies 340

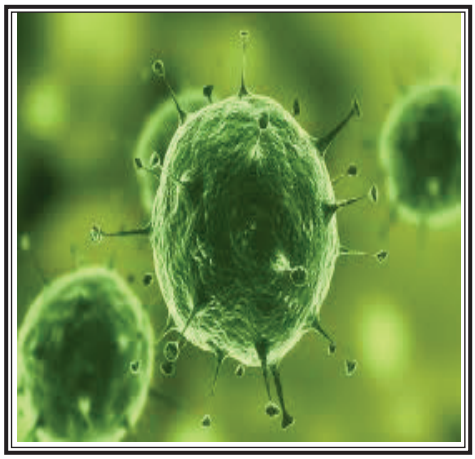
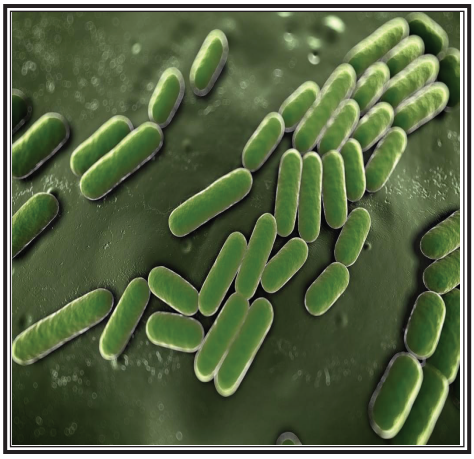
Pro Lab Marketing is here to serve you with complete dedication to deliver top quality products in the best possible manner.

COSMO BIO CO., LTD
Inspiration for Life Science



Measuring uptake of 2-deoxyglucose (2DG) in tissues and cells is a reliable approach method to estimate the amount of glucose uptake and thereby to explore the regulation of glucose metabolism and mechanism of insulin resistance.



Kit is based on the enzymatic method for the direct measurement of amount of 2DG6P without the use of radioisotope materials. This method is useful for the screening of anti-diabetic drugs as well as for research in glucose metabolism and insulin signaling.

Creative BioMart provides quality recombinant proteins, diagnostic antibodies and antigens, diagnostic enzymes and pharmaceutical enzymes to the research community of biology, clinical research, molecular diagnostics and biopharmaceutical drug development.

They offer more than 1,000 recombinant proteins, peptides and antibodies. All the products are rigorously tested to meet the most demanding research needs.

We, Pro Lab Marketing are the authorized Indian distributor of Creative BioMart for the entire Indian Territory. Please visit Creative BioMart website *www.creativebiomart.net* for the product details, or write to us at *info@prolabmarketing.com*

Pro Lab Marketing is here to serve you with complete dedication to deliver top quality products in the best possible manner.

Please send us your queries at info@prolabmarketing.com

Medical & Biological Laboratories Co., Ltd. - Japan

www.mbl.co.jp

MEDICAL & BIOLOGICAL LABORATORIES CO., LTD. is one of the leading biotechnology company in Japan. Since MBL was established as the Japan's first antibody maker in 1969, they have focused on developing sophisticated antibody making technologies and providing high quality antibodies to clinical and research markets. Especially, they have the largest market share in the area of antuoimmune disease testing in Japan. Now in cooperation with group companies in the United States and China and with distributers over the world, they provide in vitro diagnostics and research reagents worldwide.

MBL and network companies' businesses cover a wide range of medical and bio industries;

- R&D, manufacturing and sales of in vitro diagnostics mainly for autoimmune diseases, pathological and cytological reagents, and genetic diagnostic drugs, marketed for hospitals and clinical laboratory testing centers.
- R&D, manufacturing and sales of research reagents marketed for biological laboratories and R&D sections in universities, companies and other facilities.
- R&D of antibody medicines utilizing antibody technologies and R&D of cancer markers.
- Contracted services of various operations covers from production and sales to management, business development, and consulting.
- Investiment to bio-ventures, and participation to and support of bio-ventures' establishment and management.

We, Pro Lab Marketing are the authorized Indian distributor of Medical & Biological Laboratories Co. Ltd. for the entire Indian Territory. Please visit the MBL website *www.mbl.co.jp* for the latest & comprehensive list of products and product details, or write to us at *info@prolabmarketing.com*.

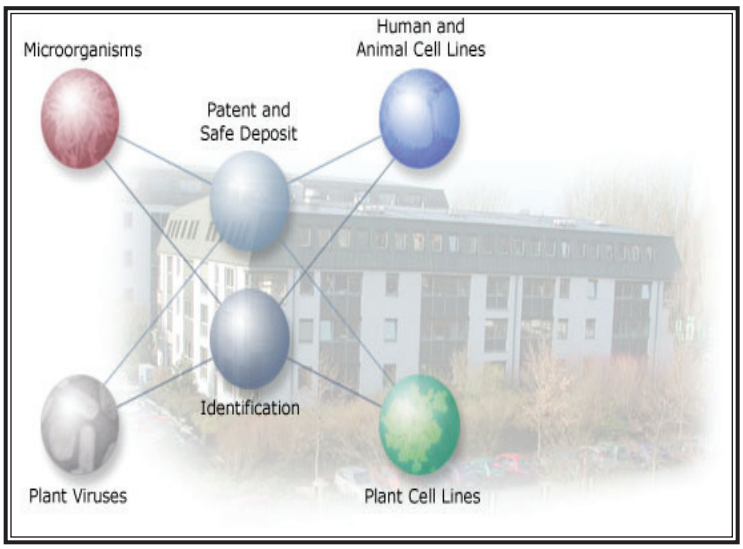
PRODUCT INCLUDES

- Protein Kinase
- Protein Phosphatase
- Acetylation / Deacetylation
- Protein Modification
- Cell Growth / DNA Damage
- Glycation / AGEs
- Adipocytokine / Adipokine
- S100 Protein
- Antibody

BioVision
Biovision Incorporated

Glucose Colorimetric / Fluorometric Assay Kit (Cat# K606-100)

The Glucose Assay Kit provides direct measurement of glucose in various biological samples (e.g., serum, plasma, body fluid, food, growth medium, etc.). Glucose level is a key diagnostic parameter for many metabolic disorders. Measurement of glucose can be very important in both research and drug discovery processes. Glucose Enzyme Mix specifically oxidizes glucose to generate a product which reacts with a dye to generate color (λ = 570 nm) and fluorescence (Ex/Em = 535/587 nm). The generated color and fluorescence is proportionally to the glucose amount. The method is rapid, simple, sensitive, and suitable for high throughput. The glucose assay is also suitable for monitoring glucose level during fermentation and glucose feeding in protein expression processes. The kit detects 1-10000 µM glucose samples.



From BioVision Inc. (USA)

(Price List and details on pages no. 167-193)

DSMZ GmbH - Germany

www.dsmz.de

The DSMZ is one of the largest biological resource centers worldwide. Its collections currently comprise almost 40,000 items, including about 20,000 different bacterial and 5,000 fungal strains, 700 human and animal cell lines, 800 plant cell lines, 1,000 plant viruses and antisera, and 4,800 different types of bacterial genomic DNA. All biological materials accepted in the DSMZ collection are subject to extensive quality control and physiological and molecular characterization by DSMZ central services. In addition, DSMZ provides an extensive documentation and detailed diagnostic information on the biological materials.

We, Pro Lab Marketing are the authorized Indian distributor of DSMZ, for the entire Indian territory.

Please visit DSMZ website www.dsmz.de for the product data sheet, or write to us at info@prolabmarketing.com.

PRODUCT INDEX

• Reagents for Virus Detection (Antisera & Controls) 358

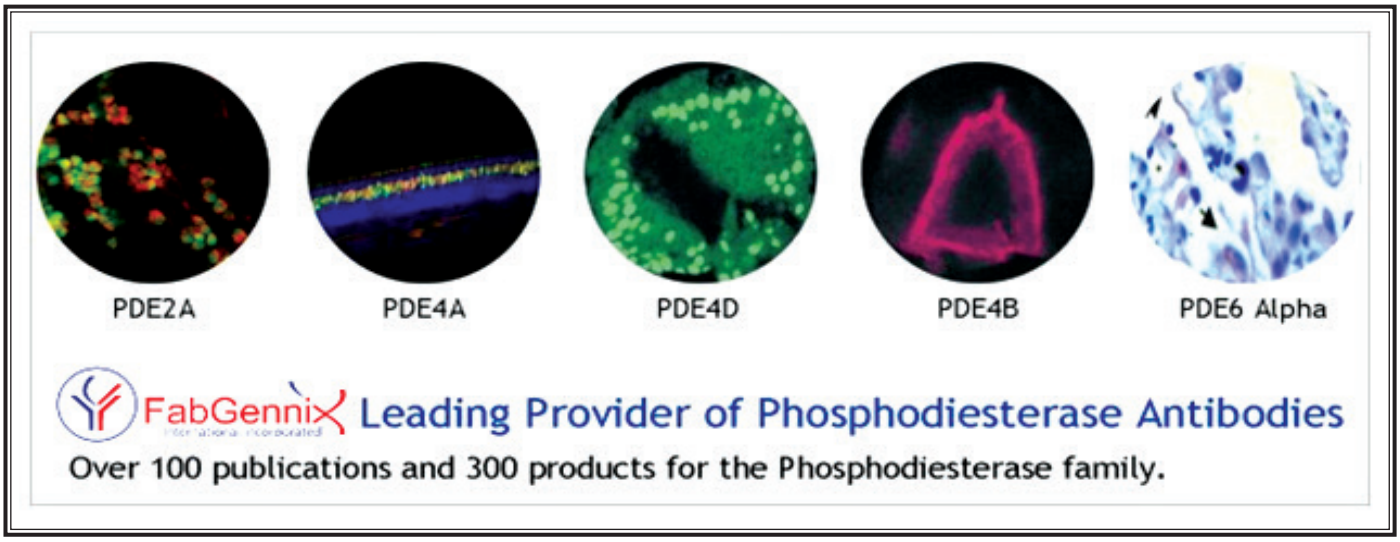
biotechnology
KOMABIOTECH

Gels use a unique buffer formulation that maintains a low operating pH during electrophoresis. This eliminates the “smiles” and poor resolution seen with Tris-glycine SDS-PAGE gels.

Precast Gels provide:

- Superior protein band resolution and stability
- Faster sample run times
- Longer product shelf life
- More efficient western blot transfer

From Koma Biotech - Korea



(Price List and details on page no. 397-404)

NOTE: Minimum order of DSMZ products should be for Rs. 50,000 or more
PC-Positive Control, NC - Negative Control & AS - Antisera.

Fabgennix International, Inc. - USA

www.fabgennix.com

FabGennix International provides high-quality research tools, expert technical support, relevant up-to-date accurate data and fast world-wide shipping. FabGennix International has provided over high quality effective research tools for 15 years.

They are constantly adding new products to their inventory including primary and secondary antibodies, reagents, kits, peptides and positive controls. All of their antibodies are developed and characterized in house.

We, Pro Lab Marketing are the authorized Indian distributor of Fabgennix International for the entire Indian Territory. Please visit the Fabgennix International website *www.fabgennix.com* for the latest & comprehensive list of products and product details, or write to us at *info@prolabmarketing.com*.

FD Neuro Technologies, Inc. - USA

www.fdneurotech.com

FD NeuroTechnologies, established in 1996, is committed to providing unique products and services of the highest possible quality for the morphological studies of the central nervous system. The company is fully operated by scientists with more than 20 years of hands-on research experience.

FD NeuroTechnologies, Inc. is one of the leading biotechnology companies dedicated to the morphological studies of the central nervous system. They were established in 1996, their products and services have been utilized by federal laboratories, academic research institutions, pharmaceutical companies, and biotechnology companies, both nationally and internationally.

Over the past decade, their products and services have been widely used by researchers from both academic and federal laboratories as well as pharmaceutical and biotechnology companies. As experts in the fields of neurohistology, neurohistopathology, and immunohistochemistry, they have been acknowledged in the scientific community for the quality, efficiency and flexibility of their products & services.

We, Pro Lab Marketing are the authorized Indian distributor of FD Neuro Technologies for the entire Indian Territory. Please visit the FD Neuro Technologies website *www.fdneurotech.com* for the latest & comprehensive list of products and product details, or write to us at *info@prolabmarketing.com*.

GenScript USA Inc. - USA

www.genscript.com

GenScript is a leading biology CRO focusing exclusively on early drug discovery and development services. Built on its assembly-line mode, one-stop solution, continuous improvement, and stringent IP protection, GenScript provides a comprehensive portfolio of services that include Bio-Reagent, Bio-Assay, Lead Optimization, and Antibody Drug Development which can be effectively integrated into your value chain and your operations. The company strives with competence and confidence to meet your demand for developing pre-clinical drug candidates time-efficiently and cost-effectively. With track performance record, GenScript is your ideal and reliable innovation partner in drug discovery.

Key Facts about GenScript

- GenScript is the largest gene synthesis provider in the U.S.A
- GenScript offers the best antibody service guarantees in the industry.
- GenScript provide one-stop biology contract research services for early drug discovery in both small and large molecules.
- GenScript offers advanced bioinformatics tools and IT infrastructure for value-added services, maximizing the client's convenience and satisfaction.
- GenScript customers include top pharmaceutical companies, major biotech firms, and research institutions in over 70 countries.

We, Pro Lab Marketing are the authorized Indian distributor of GenScript to promote and market its high quality products & services in India. For product information you may visit GenScript website www.genscript.com or you may forward us your enquiries at info@prolabmarketing.com.

GENE SYNTHESIS SERVICES

As one of the pioneering DNA synthesis companies and the largest gene synthesis supplier in USA, GenScript has synthesized over 100,000 genes and constructs for customers around the world. Over the years, GenScript has fine-tuned and empowered its Gene-on-Demand technology platform, which brings together proprietary OptimumGene codon optimization technology and CloneEZ seamless cloning technology for the synthesis of GC-rich and extremely long genes. This has allowed GenScript to offer its customers with the most challenging genes in any vector. Genscript's ever increasing capacity (over 4.5 million bp/month) and proprietary technologies enable it to deliver custom de novo genes with any length and any complexity.

By ordering genes from GenScript, you will receive a tailored service on top of saving both time and money compared to traditional cloning. In addition, you will receive the highest quality (ISO 9001:2008 certified) products in promised delivery time.

Advantages

- **Free codon optimization:** Proprietary OptimumGene codon optimization technology can comprehensively optimize DNA sequences to significantly increase protein expression in any host.
- **Any gene in any vector:** CloneEZ seamless cloning technology can accurately and efficiently fuse your gene into any site on any vector.
- **Guaranteed sequence:** Proprietary Gene-on-Demand® gene synthesis platform enable mutation-free DNA synthesis for genes of any length and any complexity.
- **One-stop solutions:** Comprehensive downstream services.
- **Cost effective:** Ease your budget crunch with competitive prices supported by economy-of-scale.

Gene Synthesis Price:

- For the Gene construct less than 3kb, the price is **Rs. 50/bp**
- For the Gene construct between 3-5kb, the price is **Rs. 55/bp**
- For the Gene construct between 5-8kb, the price is **Rs. 60/bp**
- The Gene will be delivered in pUC57 or pU57-Kan vector at free of charge.
- The minimum charge for each DNA sythesis project is **Rs. 29,500.**

Subcloning into commercial vector is available for following prices:

- For the Gene construct less than 3kb, the price is **Rs. 20,860/-**
- For the Gene construct between 3-6kb, the price is **Rs. 27,860/-**
- For the Gene construct between 6-9kb, the price is **Rs. 34,860/-**

Delivery Specifications

- 4 mg of lyophilized plasmid containing your gene insert.
- Quality assurance certificate.
- Sequence chromatograms covering your gene (electronic).
- Construct map for the plasmid (electronic).

Placing Order

For quick delivery of genes 100% match of your sequence, send us your enquiries at info@prolabmarketing.com

SITE-DIRECTED MUTAGENESIS SERVICES

Site-directed mutagenesis is central to molecular biology, facilitating research in a variety of fields, including studies of gene regulatory elements, DNA-protein interaction, protein structure/function, enzyme active sites, and novel proteins. GenScript's site-directed mutagenesis services, powered by sophisticated gene synthesis technology and high performance GS polymerase, include point mutations, deletions, and insertions. They can be customized to fit any scientific applications.

Advantages of Genscripts Site-Directed Mutagenesis Services

- **Unparalleled Accuracy:** GenScript's high performance GS polymerase ensures accuracy of mutants, avoiding creation of unwanted mutations.
- **Unlimited Sites:** By sophisticated mutagenesis technology, GenScript can introduce mutations at any site.
- **Mutation on Large Construct:** Genscript technology is optimized to introduce mutations, insertions, and deletions on constructs as large as up to 12 kb (including target gene and its vector).
- **Comprehensive Service Package:** Genscript offers comprehensive upstream and downstream services, including template sequencing, expression vector construction, and protein expression and purification

Pricing Information

Cat. No.	Promotion	Price per mutation	Note
SC1441	Gene Synthesis and Mutagenesis Bundle Service	Inquire	a. Bundle discount is provided to orders with template gene synthesized at GenScript at the same time. b. The list price is valid for genes less than 1 kb in length. For genes longer than 1 kb, an additional **Rs. 12,000** per kb will be applied. One mutation is defined as any combination of mutations within a 10-base frame.
SC1023	Standard Mutagenesis	Inquire	

Sample Submission Requirements

Please provide following:

- The complete sequence of the template including the target gene and its vector
- Mutation specifications
- Maps and antibiotic resistance of the template and destination vectors
- Recommended to send 4 mg of template DNA as the starting material. If the starting material is bacterial culture, please send the culture at sufficient amount.

Delivery Specifications

GenScript typical turnaround time is about 15 business days. The delivery package includes:

- 4 mg lyophilized destination vector containing the gene.
- Sequence chromatograms covering your gene (electronic).
- Construct map for the plasmid (electronic).
- Quality assurance certificate.

Placing Order

Please send your enquiries at *info@prolabmarketing.com*

KI AND KO VECTOR CONSTRUCTION SERVICES

Targeting vector construction is a prerequisite for the generation of genetically engineered animals. GenScript's advanced molecular biology platform has provided thousands of targeting vectors to customers worldwide. These targeting vectors have been successfully used in traditional and conditional knock-out, knock-in, and many other genetic modification projects.

Key Features

- **Strong versatility:** Genscript can knock out or knock in any gene of or under 20 kb in size on any part of any vector.
- **Seamless cloning without undesired joint sequences:** GenScript's proprietary CloneEZ® seamless cloning technology can tailor accurate, high-quality target vectors, seamlessly.
- **Fast delivery and high successful rate:** Clients can typically receive their custom knock-in and knock-out vector constructs in less than four weeks. The successful rate has been kept over 95%.
- **Cost-effective solution:** Most competitive prices.

Service Specification

1.Vector construction for traditional knock-out (Conventional knock-out) Cat. No. SC1161.

Traditional knock-out involves deleting or disabling both copies of a specific gene. This can be highly advantageous for both biomedical research and drug development. GenScript has developed several powerful technology platforms for efficient and precise generation of most standard and conventional knock-out targeting vectors, by combining de novo gene synthesis and quick cloning techniques.

2. Vector construction for conditional knock-out (Tissue-specific or development gene targeting) Cat. No. SC1162

Conditional knock-out involves deleting or disabling a gene in only a particular organ, tissue, or cell type or only during a certain development stage. GenScript provides targeting vectors that can be tailored for inactivation of specific genes in specific tissues in a temporally specific manner. Genscript's scientists have years of experience in inserting loxP and FRT sequences and modified DNA sequences into customized targeting vectors.

3. Vector construction for knock-in Cat. No. SC1163.

Reporter gene knock-in provides a more predictable expression pattern than random integration (transgenic methods). Similar to its conventional knock-out vector construction service, GenScript offers targeting vectors for efficient and precise genetic engineering with a variety of useful traits, such as site-specific modifications in specific genes and reporter gene knock-in.

4. Modification of targeting vector or BAC construction Cat. No. SC1164.

GenScript has established several simple and effective methods for the modification of plasmids and BACs, allowing precise engineering, unlimited cloning and subcloning, and mutagenesis of DNA molecules of any size.

**GenScript's proprietary pGFk4.1 is available now! The vector is designed for knockout vector construction containing a neo cassette flanked by two loxP sites.*

Delivery Specfications

The turnaround time for targeting vector construction projects is usually less than five weeks. Typical delivery includes the following:

- 4 µg targeting vectors.
- Restriction enzyme digestion map of the vectors.
- Sequencing data covering the junction regions.
- Quality assurance certificate.

Optional Features

- 100 µg targeting vectors.
- Linear targeting vectors.
- Targeting vectors with ultra-low endotoxin.
- Sequencing data covering the arms.

GENSCRIPT'S OTHER SERVICES FOR MOLECULAR BIOLOGY APPLICATIONS

Mutant Libraries

GenScript's mutant libraries are constructed using in vitro molecular optimization method, which provide a usedful approach to the systematic study of protein properties, regulation & function. Its mutant library services include site-directed mutagenesis libraries, sequential permutation scanning libraries and randomized & degenerated libraries.
Read further on *www.genscript.com*

Genpool ORF Cloning

GenScript CloneReady™ Gene Collection contains over **120,000** Human/Mouse/Rat ORF genes from both public and proprietary sources, and the number is still growing. With the CloneReady™ Gene Collection, there is no need to perform tedious cloning, sequencing, and validation procedures. You will get your gene of interest readily available for your downstream analysis needs.
Read further on *www.genscript.com*

Vector brased siRNA & miRNA

The GenScript siRNA technology package includes siRNA design, siRNA vectors, and custom siRNA construction. GenScript siRNA technology has several advantages over synthetic siRNA methods. A powerful tool for gene function analysis and drug target validation.

PEPTOID SYNTHESIS SERVICES

Peptide drugs are a rapidly growing class of therapeutics. However, the peptide drug discovery has been hampered by its inherent characteristics: low stability due to susceptibility to enzymatic digestion, low target specificity because of high conformational flexibility, low hydrophobicity and the lack of specific transportation systems. In order to overcome these disadvantages of peptide, GenScript has developed an innovative **Peptoid Synthesis (SC1559)** service to meet the increasing needs in drug target discovery and lead structure discovery research.

Key Features (Peptoid VS. Peptide):

- **More stable:** Peptoids are less susceptible to degradation in vivo than peptides.
- **More choices:** Peptoids are well suited for combinatorial approaches to drug discovery because large libraries can be synthesized easily from readily available primary amines.
- **More cost-effective and time-efficient:** Major advances in screening methodology have allowed peptoid libraries of hundreds of thousands of compounds to be mined inexpensively and quickly for highly specific protein-binding.
- **Higher market potential:** The features of peptoids make them a class of pharmacological agents with great potential.

Services Specifications: Peptoid Synthesis (Cat. No.: SC1559)

- 20 different residues available, more in development.
- Peptoid length up to 20 residues.
- Peptoid purity from crude to >98%.
- Peptoid quantity up to 500 mg.
- **Available modifications:** Acetylation, Amidation, Biotin, FAM, FITC, TMR labeling.
- MS, HPLC, and COA provided for each peptoid.
- 3-7 weeks turnaround time, depending on the length and quantity of ordered peptoid.

Available Peptoid Side Chains:

Methylamine	2-(methylthio)ethylamine
Ethylamine	3-Methoxypropylamine
n-propylamine	N-Boc-1,4-Diaminobutane
Isopropylamine	4-methoxyphenethylamine
n-butylamine	3,4-Dimethoxybenzylamine
Sec-butylamine	(S)-(+)-Tetrahydrofurfurylamine
Isobutylamine	Piperonylamine
Benzylamine	4-(2-Aminoethyl)benzenesulfonamide
b-phenylethylamine	Tert-butylamine
a-methylbenzylamine	diisopropylamine

PEPTIDE SYNTHESIS SERVICES

GenScript provides high quality peptide synthesis service with a success rate well above the industry standard. The company is committed to Total Quality Management (TQM) to assure customers' complete satisfaction. MS and HPLC analyses are performed following the completion of peptide synthesis, purification and QC (quality control). QA (quality assurance) procedures are also followed independently to double guarantee the high quality of every delivered peptide.

GenScript's FlexPeptide technology results in significant cost saving by increasing chemical coupling efficiency and shortening coupling time. The FlexPeptide technology platform combines the following technologies together:

- Flexible choices of Liquid Phase Peptide Synthesis (LPPS), particularly for shorter peptides, or Large-Scale Solid Phase Peptide Synthesis (SPPS) suited to longer, more complex sequences.
- Microwave technologies that increase reaction rate and improve yield in the peptide synthesis process.
- Proprietary ligation technology that allows joining peptides of up to 200 amino acids.

Competitive Advantage

Feature	GenScript	Competitors
High success rate	≥ 95%	≥ 75%
Microware Technology	Yes	No
Free Peptide Antigen Design	Yes	No
Prices	Starting at Rs. 450/AA	20% higher
Convenient aliquoting	Yes	No

1. **High Success Rate:** GenScript surpasses many of its competitors in the rate of successful peptide synthesis. Its success rate for custom peptide synthesis is more than 95%, far higher than industry's general success rate 75%.
2. **Microwave Technology:** GenScript has applied microwave technology to its peptide-manufacturing pipeline. This technology increases chemical coupling efficiency and contributes to the high success rate of peptide synthesis.
3. **Free Peptide Antigen Design:** GenScript's proprietary OptimumAntigen design tool combines the industry's most advanced algorithms with GenScript's time-tested expertise. It helps researchers to have protein sequences analyzed to select the best peptides for antibody production.
4. **Competitive Prices:** The peptide synthesis service starts as low as **Rs. 450/AA.**
5. **Fast Turnaround Time:** GenScript performs all tasks in-house. The typical turnaround time is 3-4 weeks, though this may vary depending on the size and complexity of the project.
6. **Convenient aliquoting on customer demand:** Conveniently packaging as little as 0.2 mg/vial allows re searchers to use the amount of peptides as needed each time. The extra aliquots have better stability and can be used to test the solubility for your pilot experiment. This prevents unnecessary freeze-thaw cycles, water absorption and loss of reagent from self-allocating.

Applications

• Monoclonal and Polyclonal antibody productions	• New techniques for separtation by chromatography / electrophoresis
• Identification / synthesis of posttranslational modifications	• Antibody-antigen interactions
• Enzyme specificity and enzymatic mechanisms	• Immunization and quantitative receptor-ligand interactions
• Biological effects of defined peptides	• ELISA standards for measuring titers of antibodies
• Blocking and competition assays of proteases	• Non-quantitative peptide blocking studies
• Non-quantitative enzyme-substrate studies	• Epitope mapping
• Structure, dynamics, and folding of peptides and proteins via NMR	

Delivery Specifications

The typical delivery consists of lyophilized peptide of the required sequence, purity and quantity and associated QC reports. Every step of peptide synthesis is subject to GenScript's stringent quality control.

Pricing Information

GenScript's peptide synthesis (Cat.No. SC1208) is competitively priced, starting at Rs. 449/AA . Customers retain all rights to the sequence data and related intellectual property.

For enqiries & orders, please write to us at *info@prolabmarketing.com*

Prices (INR) for Standard Peptides Synthesis of 1-30 AA in Length

PEPTIDE MODIFICATION SERVICES

GenScript offers a wide range of Peptide Modifications Services including but not limited to the following:

N-Terminus Modifications	C-Terminus Modifications	Other Modifications
Acetylation (Ac)	Amidation	Biotin and FITC Labeling
Formylation (For)	AMC	Disulfide Bridge
Fatty Acid	Alcohol New!	Phosphorylation
Benzoyl (Bz)	Ester (OMe, OEt) New!	BSA, KLH, OVA Conjugation
Benzyloxycarbonylation (CBZ)	p-Nitroaniline (pNA)	PEGylation
Bromoacetyl (Br-Ac)	NHMe, NHEt and Nhisopen	MAPS
Pyroglutamyl (pGlu) (Pyr)	tBu	Cyclic Peptide
Succinylation (Suc)	TBzl	Quenched Fluorescent Peptide
Tertbutoxycarbonyl (Boc)	Cysteamide (Cya)	Special Amino Acid
3-Mercaptopropyl (Mpa)		Methyl and N-Met

Customers are able to customize their own packages. For more information, please write to us at *info@prolabmarketing.com*

GENSCRIPT'S OTHER PEPTIDE SERVICES

cGMP Peptide Synthesis

GenScript peptide library services feature all attributes of proprietary FlexPeptide™ technology, which has materialized into a rapid high-throughput parallel peptide synthesis platform that enables our customers to synthesize larger quantities of high purity peptides at lower cost than traditional methods. Read further on *www.genscript.com*

Peptide Library Services

GenScript's peptide library services provide flexible selections of peptide purity levels (crude, desalt, >70%, >75%, >80%, >85%, >90%, >95%, and >98%). Each peptide in the library undergoes rigorous quality control to avoid any cross contaminants before delivery. All purified peptides are delivered with complete QC data including RP-HPLC, MS, and COA report to ensure high quality. Read further on *www.genscript.com*

Peptide Array Services

GenScript offers an extremely quick and cost-efficient custom peptide array service (Cat. No.: SC1507) to satisfy your further demand in route of new drug development. Based on the advanced peptide array platform, Genscript can provide comprehensive downstream services such as eptiope mapping. If you need up to milligram scale or more of guaranteed purified peptides (purity up to 95%) for your assay or proteomic applications, you may also choose the rapid and high-throughput peptide library services. Read further on *www.genscript.com*

OptimumGene™ GENE-TO-PROTEIN SERVICES

Producing sufficient amount of proteins with desirable purity is often time-consuming and labor-intensive especially when a project starts from a piece of gene sequence. With proprietary OptimumGene Codon Optimization and gene design technologies, GenScript's experienced team of scientist can help you speed up your project by offering guaranteed **Gene-to-Protein** service that delivers 10 mg of purified protein right out of your gene sequence.

GenScript's streamlined Gene-to-Protein service takes your project directly from gene synthesis to protein expression and purification. In addition, there are flexible scale-up options readily available to you. Simply submit your target gene sequence and 10 mg of purified protein will arrive at your bench in as little as 5 weeks.

To make the service more attractive, Genscript has recently increased the length of gene synthesis for OptimumGene **Gene-to-Protein** Package from 400 bp to 1 kb without additional charge. Meanwhile, on top of the package's inherent 10 mg guarantee, you can also get an additional guarantee of 5 mg protein to meet your different needs if you choose to do so.

Advantages

- Proprietary OptimumGene Codon Optimization Technology
- Guaranteed 10 mg of purified proteins.
- **Fast turnaround:** as little as 5 weeks
- **One-stop service platform:** GenScript can take your project directly from gene synthesis to downstream activities including recombinant protein expression, stable cell line generation, antibody production, and as say development.

1. OptimumGene Gene-to-Protein Package (SC1484)

Milestones	Timeline	Specifications	Deliverables
Step 1: Gene Synthesis (FREE of charge up to 1 kb)	3-5 weeks	• Gene design and synthesis through the OptimumGene Gene Design Technology	Gene in pUC57
Step 2: Subcloning	3-5 weeks	• Subclone the gene into 3 expression vectors	Gene in pUC57
Step 3: Expression optimization and expression verification	2-3 weeks	• **Transformation of 3 constructs** into bacteria • **Expression optimization:** induction time, temperature and IPTG concentration. • Coomassie blue stained SDS-PAGE gel. • Yield estimation and feasibility proposal for large-scale expression (optional)	QC data
Step 4: Expression and purification	2-3 weeks	• Bacteria expression and one-step affinity purification • QC by SDS-PAGE, Western blot and MALDI-TOF	5 mg/10 mg or more of purified soluble tagged protein QC data

PROTEIN EXPRESSION SERVICES

BacPower™ Bacterial Expression System

BacPower™ Guaranteed Protein Package enables GenScript to deliver 3 mg of purified soluble protein to you in as little as 5 weeks at very affordable prices. The company offers fully Customized Protein service and large scale Bacterial Fermentation Service to meet your needs. Read further on *www.genscript.com*

YeastGIGH™ Yeast Expression System

Yeast protein expression system is the most economical eukaryotic expression system for both secretion and intracellular expression. GenScript's YeastHIGH™ Advanced Package enables high protein expression yield and achieves a success rate of over 90% for a variety of recombinant proteins. Read further on *www.genscript.com*

BacuVance™ Baculovirus Expression System

The baculovirus expression vector system (BEVS) is universally recognized as a powerful and versatile system for production of high quality proteins. GenScript's BacuVance™ Baculovirus/Insect Cell Expression Platform was developed by our in-house team of scientists for virus production and expression of recombinant proteins from baculovirus-infected insect cells in flexible scale. Read further on *www.genscript.com*

Mammalian Cell Expression

GenScript's transient protein expression service promotes fast production and delivery of recombinant proteins and monoclonal antibodies up to grams level. The proprietary mammalian expression system platform can successfully be used for cases in which the folding of proteins is crucial to the customers' intended applications.
Read further on *www.genscript.com*

Large-scale Protein Production Service

GenScript has provided its clients in the public and private research sectors, academia, and all levels of the pharmaceutical industry with protein orders as large as grams. GenScript has delivered more than 2000 proteins, including 300 grams of protein on a single project. Read further on *www.genscript.com*

POLYCLONAL ANTIBODY PRODUCTION SERVICES

Unlike monoclonal antibodies, polyclonal antibodies correspond to multiple epitopes and tend to contain several immunoglobulin subtypes. They can be used as both primary and secondary antibodies in Westerns, ELISAs, and IHCs. With AAALAC International accredited animal facility, GenScript provides polyclonal antibody services in mouse, rat, rabbit, chicken, goat/sheep, SPF animals, and other species. Its polyclonal antibody packages include antigen design, peptide synthesis, immunization, purification, ELISA test, and lyophilization. Customers can simply select their desired packages and send us their specific requirements, and GenScript will offer antibodies with guaranteed quality.

Guarantees

Based on the proprietary OptimumAntigen design tool, T-Max adjuvant and nanotechnology, GenScript guarantees to deliver polyclonal antibodies with **ELISA titer of 1:32,000 or better developed in any host** if peptide antigens were designed, synthesized, and conjugated by GenScript. For any qualified protein antigen (3 mg, >85% purity, 90% preferred), Genscript guarantee a polyclonal antibody developed in any host with positive **Western blot results** and an **ELISA titer of 1:32,000 or better** in any host. Otherwise, GeneScript will restart the project free of charge until guarantees are met.

Services include

GenScript offers a variety of polyclonal antibody production packages. Its experienced customer representatives will guide you in the process of selecting the service package that best suits your applications.

1. Most popular: Complete Affinity-Purified Peptide Polyclonal Antibody Package (Rabbit) (Cat. No.: SC1031; services starts from Price (INR) 142,500)

Package includes:	You will receive (in 16-18 weeks):
• Peptide synthesis • Two rabbits, pre-immune bleed, 4 immunizations and final bleed • Peptide affinity purification • ELISA test • Lyophilization (Optional)	• 3-50 mg affinity-purified antibodies (>1:32,000) (lyophilized) • 5 mg of unconjugated peptide • 1-2 ml of pre-immune serum* • ELISA results, MS and HPLC reports

2. Western-GUARANTEED Peptide Polyclonal Antibody Package (Rabbit) (Cat. No.: SC1390; services starts from Price (INR) 427,500)

Package includes:	You will receive (in 19-21 weeks):
• Peptide design and synthesis • Peptide-KLH conjugation • 6 rabbits immunization, Pre-immune bleeds and test bleeds • Affinity purification and ELISA results Western blot test • Lyophilization (Optional)	• 3-50 mg purified antibodies (lyophilized) • 5 mg of unconjugated peptide • 1-2 ml of pre-immune serum* • MS and HPLC reports • Western blot, ELISA titer reports

POLYCLONAL ANTIBODY PACKAGE LIST

Convenient packages designed to meet all your needs. Services starts from **Price (INR) 97,350**

Cat#	Antibody Services	Species
SC1044	Phospho-specific polyclonal antibody package	Rabbit
SC1180	Express complete Affinity-purified peptide polyclonal antibody package	Rabbit
SC1046	Complete Peptide Polyclonal Antibody Package	Mouse
SC1049	Complete Protein A-Purified Peptide Polyclonal Antibody package	Mouse
SC1015	Complete Peptide Polyclonal Antibody Package	Rabbit
SC1045	Complete Protein A-Purified Peptide Polyclonal Antibody package	Rabbit
SC1031	Complete Affinity-Purified Peptide Polyclonal Antibody Package	Rabbit
SC1050	Complete Peptide Polyclonal Antibody Package	Goat
SC1051	Complete Protein G-Purified Peptide Polyclonal Antibody package	Goat
SC1368	Complete Affinity-Purified Peptide Polyclonal Antibody Package	Goat
SC1055	Complete Peptide Polyclonal IgY Antibody Package	Chicken
SC1056	Complete Affinity-Purified Peptide Polyclonal Antibody Package	Chicken
SC1313	Complete Peptide Polyclonal Antibody Package	Rat
SC1314	Complete Protein G-Purified Peptide Polyclonal Antibody package	Rat

NOTE: - FORM FOR WESTERN GUARANTEED POLYCOLONAL ANTIBODY SERVICES at *http://www.genscript.com/antibody.html?src=primary_antibody_page*

MONOCLONAL ANTIBODY PRODUCTION SERVICES

GenScript's monoclonal antibodies are produced in hybridoma cell lines derived from the fusion of myeloma cells and antibody-producing B-lymphocytes. Using proprietary OptimumAntigen design tool, FlexPeptide peptide synthesis, T-Max adjuvant, nanotechnology technology, and state-of-the-art hybridoma technology, Genscript's THE elite antibodies are the most sensitive and effective epitope tag antibodies in the market produced from AAALAC International accredited and OLAW assured animal facility. Genscript can deliver smooth antibody projects in the most cost-effective way.

GenScript's Guarantees

Genscript guarantee two positive clones for monoclonal antibodies development if peptide antigens were designed, synthesized,and conjugated by GenScript. For any protein antigen (at least 2 mg, > 50% purity), it guarantee two positive clones with positive Western blot results, or customers has only to pay set up fee.

Services Include

GenScript offers a variety of hybridoma development packages and monoclonal antibody production services. Customers are able to customize their own packages. Service starts from **Rs. 570,000.** For more information regarding monoclonal and polyclonal antibody services, please write to us at *info@prolabmarketing.com*.

1. Basic Monoclonal Antibody Package (Mouse/Rat)

Package includes:	You will receive (in 6-8 weeks):
• Immunization and ELISA screening. • Fusion and screening. • Subcloning, expansion, cryopreservation and delivery.	• Up to 5 positive hybridoma clones. • Two viats of cell culture for each clone. • 5 ml of culture supernatant.

2. Complete Peptide Monoclonal Antibody Package (Mouse/Rat)

Package includes:	You will receive (in 6-8 weeks):
• Peptide synthesis. • Immunization and ELISA screening. • Fusion and screening. • Subcloning, expansion, cryopreservation and delivery.	• Up to 5 positive hybridoma clones. • Two viats of cell culture for each clone. • 5 ml of culture supernatant. • 5 mg of unconjugated peptide.

3. Phospho-Specific Monoclonal Antibody Package (Mouse/Rat)

Package includes:	You will receive (in 16-19 weeks):
• Peptide synthesis. • Immunization and ELISA screening. • Fusion and screening. • Subcloning, expansion, cryopreservation and delivery.	• Up to 5 positive hybridoma clones. • Two viats of cell culture for each clone. • 5 ml of culture supernatant. • 5 mg of phospho-peptide. • 5 mg of unmodified peptide.

4. Anti-idotype Monoclonal Antibody Package (Mouse/Rat)

Package includes:	You will receive (in 6-8 weeks):
• Immunogen preparation. • Immunization and ELISA screening. • Fusion and screening. • Subcloning, expansion, cryopreservation and delivery.	• Up to 5 positive hybridoma clones. • Two viats of cell culture for each clone. • 5 ml of culture supernatant.

5. MonoExpress Monoclonal Antibody Package (Mouse/Rat)

Package includes:	You will receive (in 6-8 weeks):
• Peptide synthesis. • Immunization and ELISA screening. • Fusion and screening. • Subcloning, expansion, cryopreservation and delivery.	• Up to 5 positive hybridoma clones. • 3-5 ml of cell culture supernatant for each clone. • 3 mg unconjugated peptide.

6. Monoclonal Antibody Production Services

GenScript' state-of-the-art facilities and experienced staff will offer specialized monoclonal antibody production, purification and modification services, mediating the slowing effects of monoclonal antibody product in the pharmaceutical development process. In addition, GenScript offers both ascited in vivo production service and roller bottle in vitro production service.

For collection and purification of antibodies from separated animals, a total of 2 ml of pre-immune serum (1ml from each of the 2 animals) are provided. For antibody purification from pooled serum, 1 ml of pre-immune serum is provided.

Pro Lab Marketing is here to serve you with complete dedication to deliver top quality products in the best possible manner.

INDIGO Biosciences, Inc. - USA

www.indigobiosciences.com

INDIGO Biosciences nuclear receptor assay products are cell-based, reporter assay systems. They feature engineered nuclear receptor-specific reporter cells prepared using unique CryoMite™ process. This cryo-preservation method yields high cell viability post-thaw, and provides the convenience of immediately dispensing healthy, division-competent reporter cells into assay plates. There is no need for intermediate spin-and-wash steps, viability determinations, or cell titer adjustments. In the field of molecular biology, nuclear receptors are a class of proteins found within cells that are responsible for sensing steroid and thyroid hormones and certain other molecules. In response, these receptors work with other proteins to regulate the expression of specific genes, thereby controlling the development, homeostasis, and metabolism of the organism.

They also offer many Custom services such as:

- Nuclear Receptor Assays
- Nuclear Receptor Profiling and Panels
- Custom Assay Development and others

We, Pro Lab Marketing are authorized Indian distributor to market and distribute the products offered by INDIGO Biosciences for the entire Indian territory. Please visit INDIGO Biosciences website *www.indigobiosciences.com* for the product details, or write to us at *info@prolabmarketing.com*.

PRODUCT LINE INCLUDES

- Human Assay Kits
- Mouse Assay Kits
- Rat Assay Kits

Innovative Research, Inc. - USA

www.innov-research.com

We, Pro Lab Marketing are the authorized Indian distributor of Innovative Research Inc. - USA, for the entire Indian territory. Please visit Innovative Research website *www.innov-reserach.com* for the products and products details, or write to us at *info@prolabmarketing.com*.

Innovative Research Inc. is an international supplier of over 1,000 human and animal biological products, including proteins, antibodies, ELISA Kits, and more. It offers broad range of products for Life Sciences Research, which include-

BIOLOGICALS

Quality human and animal biological products perfect for cell culture, processing, or further manufacturing. Human and Animal biologicals are the core of basic research.

ANTIBODIES

Hundreds of high quality antibodies suitable for nearly every type of research are available. Antibodies are manufactured in the ISO certified facility.

ASSAY AND ELISA KITS

ELISA and Assay kits offer better results in less time. With over 500 ELISA and Assay kits readily available you will never have to worry about not finding a specific kit to meet your research needs.

PROTEINS

Innovative Research offers hundreds of different proteins that directly relate and influence various research needs including coagulation research. The company's quality proteins are assisting researchers around the world in obtaining results driven research.

PRODUCT LINE INCLUDES

- ELISA Kits
- Antibodies
- Human Serum, Plasma, and Body Fluids
- Animal Serum, Plasma, Whole Blood and Blood Cells
- Proteins
- Cell Culture

For a third of a century, Innovative Research of America has assumed the leadership role in improved time release technology. The main mission is to standardize the technology of drug delivery. Their proven Time Release Hormone and Drug Pellets help investigators take charge of product delivery and expand their abilities to do meaningful and reproducible research.

The Research Problem

Since it is not easy to administer drugs and hormones orally to research animals, several delivery methods have been devised as alternatives. However, most scientists continue to labor with unreliable injectables to conduct their research.

Because of this inadequacy, biomedical research is as confusing as it is challenging and as frustrating as it is creative. The options of scientists to address scientific questions are not only dependent, but are also limited by the process of active product delivery. Traditionally, product delivery into the experimental animal has been the procedure most subject to variables and the most difficult to standardize effectively. The very process of having to accurately administer drugs to experimental animals can become a logistic nightmare for scientists.

The Research Solution: Changing The Time Course of Drug Delivery

The good news is that times have changed. Their proven Drug Delivery Technology is helping investigators eliminate the need for unreliable, intermittent injections. Since 1980, Innovative Research of America has been the leader in supplying scientists with long term continuous release pellets embedded with active products. The technology provides finished products, in a ready-to-implant form, utilizing our Matrix-Driven Delivery (MDD) Pellet System. The pellets are intended for, although not limited to, simple subcutaneous implantation in laboratory animals.

The unique engineering of the (MDD) Pellet System integrates the three principles of diffusion, erosion and concentration gradients. It generates a finished pellet with a biodegradable matrix that effectively and continuously releases the active product in the animal.

The pellet delivery system can help the investigator take charge of standardizing and reproducing research results. It helps overcome problems commonly encountered by researchers who employ conventional delivery methods.

Scientists from several research disciplines have documented in scientific literature that our Pellet Delivery System is effective, consistent, reproducible, economical, reliable, and safe for the animal.

Kisker Biotech GmbH & Co. KG - Germany

www.kisker-biotech.com

Kisker Biotech GmbH is a supplier of High Quality Laboratory Products. G.Kisker goal is, to supply scientists working in the area of molecular biology, immunology, cell biology or related disciplines with high quality instrumentation and accessories at reasonable prices. Many products for the fast growing market have been introduced by Kisker and continuously improved while passing lower costs to the scientists.

We, Pro Lab Marketing are the authorized Indian distributor to market and distribute the products offered by Kisker Biotech GmbH, for the entire Indian territory. Please visit Kisker Biotech website www.kisker-biotech.com for the latest products and product details, or write to us at info@prolabmarketing.com.

TUBES

Cat#	Pack	Price (₹)
G027/500	25 x 20 tubes	19,800
G028/1000	10x100 tubes	33,800
G028/500	5 x 100 tubes	17,600

Pro Lab Marketing is here to serve you with complete dedication to deliver top quality products in the best possible manner.

Please send us your queries at info@prolabmarketing.com

Note: Minimum single order of G. Kisker products should be for Rs. 30,000 or more

Place your order & inquiries at info@prolabmarketing.com or call +91-11-6660 7725

biotechnology
KOMABIOTECH

Koma Biotech - Korea

www.komabiotech.com

KOMABIOTECH, Korea, manufactures and provides reagents and tools for life science research. The comprehensive product lines support applications in the study of all major life science research areas, including molecular biology, immunology, neuroscience, cell biology, proteomics and genomics research.

The key products include electrophoresis systems & pre-cast gels, PCR amplification reagents, nucleic acid purification kits, DNA methylation detection kit, recombinant proteins, monoclonal and polyclonal antibodies, ELISA kits for cytokines, immunoglobulins or viral antigens. Komabiotech also provides custom antibody production service as well.

We, Pro Lab Marketing are the authorized Indian distributor of Koma Biotech for the entire Indian territory. Please visit Komabiotech website www.komabiotech.com for the latest products and product details, or write to us at info@prolabmarketing.com.

PRODUCT INDEX

- ELISA Kits for Human 398
- ELISA Kits for Mouse 398
- ELISA Kits for Rat 398
- ELISA Kits for Bovine 399
- ELISA Kits for Porcine 399
- Monoclonal Antibodies 399
- Polyclonal Antibodies 399
- Kit Components 401
- PCR Products 401
- Molecular Biology Products 402
- Proteins 402
- Gel Electrophoresis 403
- Miscellaneous 404

Pro Lab Marketing is here to serve you with complete dedication to deliver top quality products in the best possible manner.

PMI Lab Diet are part of a food and feed company with a dedicated focus on product safety. Their TestDiet® feed facilities produce custom grain-based and purified diets for animal research in academic, government, and pharmaceutical laboratories worldwide.

They operate two of the cleanest, most efficient, and most comprehensive GMP-compliant and ISO 9001:2008 certified laboratory animal diet production sites anywhere.

As a world leader in laboratory animal nutrition, LabDiet® and TestDiet® feed nutritionists are committed to conducting innovative research programs. LabDiet® products have been the nutritional baseline used by researchers for over 70 years!

All ingredient protocols are part of ISO 9001:2008 certification documentation.

We, Pro Lab Marketing are the authorized Indian distributor of LabDiet for the entire Indian Territory. Please visit the LabDiet website www.labdiet.com for the latest & comprehensive list of products and product details, or write to us at info@prolabmarketing.com.

PRODUCTS INCLUDES

- Standard Diets
- Certified Diets
- Irradiated Diets
- China Diets
- Diet Enrichment Products

LabDiet

Your work is worth it.

LabDiet is a world leader in laboratory animal nutrition. They have vast knowledge of ingredients, nutrients and animal feed formulations. Their feed facilities produce custom grain-based and purified diets for animal research in academic, government, and pharmaceutical laboratories worldwide.

LabDiet® products have been the nutritional baseline used by researchers for over 70 years! All ingredient protocols are part of ISO 9001:2008 certification documentation.

They offer Certified LabDiet®products for rats, mice, hamsters, guinea pigs, dogs, cats, rabbits and monkeys.

Manufactured under strict supervision in our drug and estrogen-free ISO 9001:2008 Certified plant in Richmond, Indiana, all Certified LabDiet® products provide the Constant Nutrition® control required for reliable research.

Life Sensors, Inc. - USA

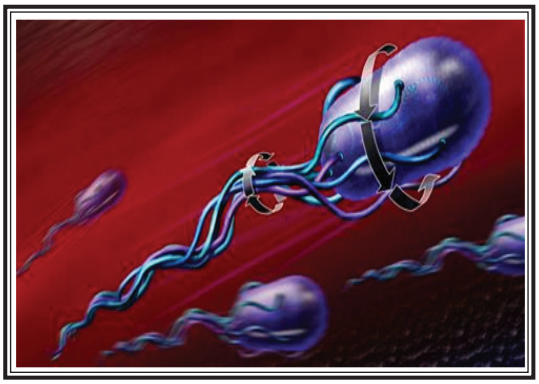
www.lifesensors.com

LifeSensors, Inc., a biotechnology company that discovers and develops enabling technologies for therapeutic, drug discovery and research markets and has established its leadership position by providing innovative research tools for the ubiquitin and ubiquitin-like protein pathways.

The company develops technologies that use SUMO (Small Ubiquitin-like MOdifier) to overcome bottlenecks in protein production, and is the leading producer of tools to facilitate the study of the Ubiquitin-Proteasome Pathway.

Its prokaryotic and eukaryotic protein expression platforms SUMOpro and SUMOstar are used worldwide by academic and government institutions, as well as pharmaceutical and biotechnology companies.

LifeSensors holds several patents covering the use of SUMO and other UBLs as gene fusion tags to improve protein expression and purification and has filed for or licensed patents for novel assay technologies for de-ubiquitinases and ubiquitin ligases. Leveraging its active protein production capabilities, LifeSensors is proud to develop Functional Protein Arrays and to introduce first-in-class human de-ubiquitylase arrays (DUB Arrays). These protein arrays are used for drug discovery and diagnostics markets.



We, Pro Lab Marketing are authorized Indian distributor to market and distribute the products offered by LifeSensors, Inc. for the entire Indian Territory. Please visit LifeSensors, Inc. website *www.lifesensors.com* for the product details, or write to us at *info@prolabmarketing.com*.

PRODUCT INCLUDES

- Protein Expression Kits
- Antibodies
- Enzyme
- Substrates
- Inhibitors
- Proteins & Peptides
- Vectors & Plasmids
- Biochemicals
- Miscellaneous

List Biological Laboratories, Inc. - USA

www.listlabs.com

List Biological Laboratories Inc. was founded in 1978 by Linda Shoer. Cholera toxin, the first product, was sought after by those doing research in signal transduction and by others using the toxin B subunit to label neurons. Their focus is on quality bacterial toxins, which one can depend on for their research. Because toxins have been the basis for many vaccines, List Labs products have supported vaccine development. List Labs was the first to commercialize many bacterial toxins for research, including C.difficile toxins and pertussis toxin. Today, they remain uniquely focused on manufacturing, offering and supporting a wide range of bacterial products. They offer over 100 products including toxins, peptides, antibodies and lipopolysaccharides.

List Biological Laboratories, Inc. custom manufactures bacteria at various scales for research and clinical investigations. They have processes for producing Probiotics, Live Biotherapeutics and microbial-based therapeutics. They are experienced in creating and preserving cell banks, cultivating a variety of native and recombinant microorganisms, purifying, formulating and lyophilizing their enzyme products, virulence factors and microbial cell wall components. Their facility is designed to support GMP production for clinical trials with appropriate product segregation and spore containment. List Labs' expertise includes manufacturing process design, closed system design, bioburden control, defining valid specifications and GMP-compliant production and control records.

We, Pro Lab Marketing are authorized Indian distributor to market and distribute the products offered by List Biological Laboratories for the entire Indian Territory. Please visit List Biological Laboratories website *www.listlabs.com* for the product details, or write to us at *info@prolabmarketing.com*.

PRODUCT INCLUDES

- Toxins

Megazyme International Ireland Ltd. - Ireland

www.megazyme.com

Megazyme International Ireland Ltd. is a biotechnology company specialising in the development, manufacture and supply of diagnostic test kits and reagents for food, feed, dairy and wine industries.

The assay reagents produced by Megazyme are finding widespread acceptance and are currently being adopted by the enzyme manufacturing companies as part of their quality control.

Megazyme has established an international reputation for excellence in the development and supply of **analytical reagents,** across a wide range of industries such as cereal, food, feed, fermentation and textiles industries covering:

- Product for Analytical Laboratory
- Product for Animal Feeds
- Product for Baking and Bread Improvers
- Product for Detergent Industry
- Product for Fermentation and Enzymes
- Product for Malting, Brewing and Juice Manufacture
- Product for Milk, Dairy & Wine Industry
- Product for Milling and Starch Industries
- Product for Plant Breeding
- Product for Research
- Product for Textiles Industry

We, Pro Lab Marketing are the sole authorized Indian distributor to market and distribute the products offered by Megazyme for the entire Indian territory. Please visit Megazyme website, www.megazyme.com for the latest products and product details, or write to us at info@prolabmarketing.com.

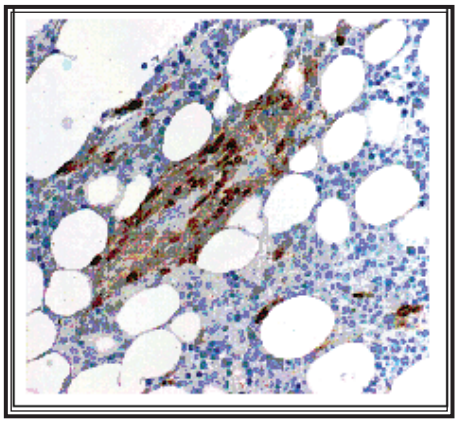
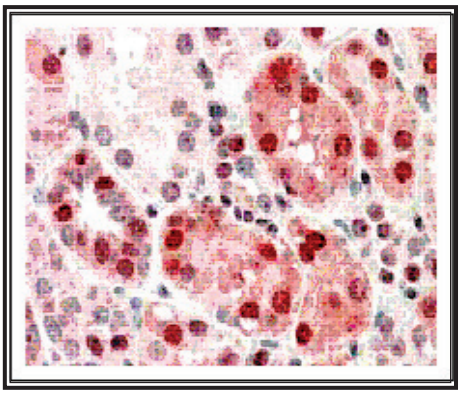
Pro Lab Marketing is here to serve you with complete dedication to deliver top quality products in the best possible manner.



Place your order & inquiries at info@prolabmarketing.com or call +91-11-6660 7725

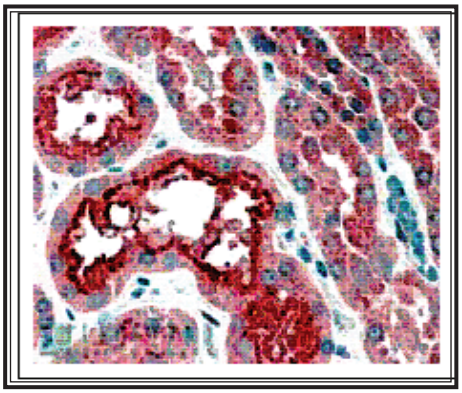
MyBioSource, Inc. - USA



www.mybiosource.com

MyBioSource, Inc. USA provides a wide selection of quality reagents / products ranging from:

- ELISA Kits
- Monoclonal Antibodies
- Polyclonal Antibodies
- Secondary Antibodies
- Recombinant/Purified Proteins
- Peptides
- Antigens



We, Pro Lab Marketing are the authorized Indian distributor of MyBioSource for the entire Indian territory. Please visit MyBioSource website *www.mybiosource.com* for the latest & comprehensive list of products, or write to us at *info@prolabmarketing.com*

PRODUCT INDEX

- ELISA Kits for Human 414
- ELISA Kits for Mouse 459
- ELISA Kits for Rat 491
- ELISA Kits for Bovine 514
- ELISA Kits for Fish 531

Pro Lab offers comprehensive range of Lipids and fatty acids. These include Sphingolipids, Phospholipids, Sterols, Bioacitve Lipids, Coenzymes A & derivatives, Neutral Lipids, Fatty Acids Modified Lipids, Headgroup Modified Lipids, cationic Lipids (Transfection), Detergents, Fluorescent Lipids, Polymers & Polymerizable Lipids and more.

Avanti® POLAR LIPIDS, INC.

From Avanti Polar Lipids, Inc. - USA

(Price List and details on page no. 129-147)

PCRBIOSYSTEMS
simplifying research

PCR Biosystems Ltd. - UK

www.pcrbio.com

PCR Biosystems offers a range of best-in-class kits and reagents for PCR and related technology. By combining their enhanced polymerases with highly-developed reaction buffers and novel hot-start chemistry PCR Biosystems is leading the development of PCR. PCR reagents have been developed to maximise yield and sensitivity in the simplest and most challenging of reactions.

Their portfolio covers a broad range of applications including, real-time PCR, endpoint PCR, high fidelity PCR, hot-start PCR, long PCR, PCR direct from crude samples and molecular diagnostic PCR.

All PCR Biosystems products have undergone comprehensive competitor product comparisons. On average PCR out perform all competitors in yield, specificity, sensitivity and speed. PCR Biosystems produces, manufactures and distributes under a comprehensive quality management system, following ISO 9001:2008 standards.

We, Pro Lab Marketing are the authorized Indian distributur of PCR Bioystem-UK, for the entire Indian territory. Please visit the PCR Biosystems website *www.pcrbio.com* for the latest & comprehensive list of products and product details, or write to us at *info@prolabmarketing.com*.

PRODUCT INCLUDES

- End Point PCR Kits
- End Point Ready Mixes Kits
- End Point One-Step PCR Kits
- Real Time PCR Master Mixes Kits
- Real Time PCR One-Step RT-qPCR Kits
- cDNA Synthesis Kits
- DNA Markers

Polysciences, Inc. - USA

www.polysciences.com

Polysciences, Inc. is a leading manufacturer of specialty and fine chemicals, laboratory products, monomers, polymers, microscopy, histology, biotechnology, electronics and specialty products for pharmaceutical and personal care industries.

Polysciencs Product Range Include

Histology & Microscopy products include Fixatives, embedding kits, paraffin, embedding molds, certified dyes and stains and all the products required from grossing to diagnosis.

Microspheres & Particles category contains hundreds of products for disease diagnosis, sizing standards, separation and isolation protocols, instrµment calibration, and many other microparticle applications. Polysciences, Inc. has developed an extensive product line of polystyrene and other types of microspheres, particles and beads, including the BioMag® line of superparamagnetic particles.

Polymers & Monomers, which have application in medical devices and a great many other application to enhance critical characteristics.

Life Science products category includes electrophoresis chemicals, antibodies, fluorescent dyes, buffers and specialty biochemicals.

We, Pro Lab Marketing are the authorized Indian distribotror of Polysciences, Inc.-USA, for the entire Indian Territory. Please visit Polysciences, Inc. website www.polysciences.com for the latest products and product details, or write to us at info@prolabmarketing.com.

Pro Lab Marketing is here to serve you with complete dedication to deliver top quality products in the best possible manner.

Please send us your queries at info@prolabmarketing.com

Proteintech Group, Inc. - USA

www.ptglab.com

ProteinTech Group Inc., is a biotechnology company, engaged in the manufacture and supply of antibodies to the life sciences research community worldwide. It offers polyclonal and monoclonal antibodies, as well as cloning, protein expression and custom pre-made western services.

Proteintech antibodies have been designed and raised against the whole recombinant protein, rather than a single peptide antigen (this gives antibodies superior protein recognition capabilities and versatility, meaning you can use them in any application. The validation process is one you can really trust as the company uses primary tissues and regular cell lysates to perform all of the validation western blots).

We, Pro Lab Marketing are the exclusive authorized Indian distributor of Proteintech Group.

Please visit the Proteintech Group websit *www.ptglab.com* for the products technical information or write to us at *info@prolabmarketing.com*

PRODUCT INDEX

• Antibodies - Monoclonal 572

• Antibodies - Polyclonal 573

Bioactive Compound Library (CAT# L1700)

Selleck Chemicals

Description & Advantages

• A unique collection of 2100 bioactive chemical compounds for high throughput screening (HTS) and high content screening (HCS)

• Bioactivity and safety confirmed by preclinical research and clinical trials

• Some compounds have been approved by the FDA

• Includes most Selleck inhibitors, APIs, natural products, and chemotherapeutic agents

• Structurally diverse, medicinally active, and cell permeable

• Rich documentation with structure, IC50, and customer reviews

• NMR and HPLC validated to ensure high purity

(Price List & details on pages no. 597-616)

Research Diets, Inc. - USA

www.researchdiets.com

Research Diets, Inc (USA) is a leading manufacturer of custom, purified OpenSource diets and scientific instrumentation for Biological Data Acquisition in laboratory animal models worldwide.

Research Diets Inc. specializes in manufacturing custom purified diets for diet induced disease models. One such model is in the study of obesity and diabetes where the company developed the "Original" high fat diet for lab animal research. Over the years more than 15,000 custom formulations have been created for various areas of study.

One of the advantages with Research Diets, Inc (USA) is that the 'purified-Ingredient OpenSource Diet' formulas are completely open, allowing you to report exactly what your animals are fed, repeat your experiments, and revise dietary components while matching previous diets. A number of OpenSource diet formulations have been widely published and have become the standards for many diet-induced disease models. All of the stock diets can be irradiated.

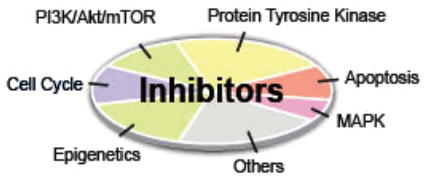
Custom OpenSource Diets®

Unlike other diet manufacturers, custom purified ingredient diet formulations are standard procedure for Research Diets—Custom is the Standard. A key benefit of our OpenSource Diets is the complete control researchers have over the diet composition. By carefully designing the diet formulas, researchers can test the effects of small or large controlled changes in nutrient composition.

Diet Induced Disease Models

Research Diets, Inc. (RDI) has over 25 years of collaborative research experience in the study of dietary factors on phenotype expression or NutriPhenomics. Our principals expert staff of nutritional scientists has formulated OpenSource Diets with their customers for many therapeutic areas, such as:

- Obesity
- Diabetes
- Cancer
- Osteoporosis
- Toxicology
- Atherosclerosis
- Hypertension
- Metabolic Syndrome



We, Pro Lab Marketing are the authorized Indian distributor of Research Diets, Inc.-USA, for the entire Indian Territory. Please visit Research Diets website *www.researchdiets.com* for the product details, or write to us at *info@prolabmarketing.com*.

Selleck Chemicals LLC - USA

www.selleckchem.com

Selleck Chemicals LLC - USA has a sister concern called Biotool.com - USA, which has range of *'Molecular Biology Kits & Reagents'*. Its products with prices are displayed at page no. 878 of this catalog.

Selleck Chemicals is one of the world leading suppliers of high-performance life science reagents and reference compounds for the non-clinical research fields. Selleck is fully dedicated and focused on the complex research biochemicals with aim to provide the most innovative range of research reagents at the most competitive price.

Selleck Chemicals supplies **over 3,000 inhibitors** used in the study of **cell signaling pathways.** We actively **tracks the latest science** so our customers can rely on us to be the **leading supplier of the newest inhibitors.**

Selleck's Bioactive Screening Libraries consist of over 2,500 small molecules with **validated biological and pharmacological activities.** The safety and effectiveness of these molecules has been demonstrated through **preclinical and clinical research,** and many of them are **FDA-approved compounds.**

Selleck Chemicals lay great attention on the purity, stability and activity of the compounds, esp. of those with subtle purity and stability problems. With a well-established Internal & External Quality Control system, Selleck Chemicals could provide the chemical test data, such as HNMR, LC-MS and HPLC, as well as test reports obtained from the experiment with their own compounds, such as Western Blot & RT-PCR, which provide a double guarantee of the biological activities of the compounds in life science research.

We, Pro Lab Marketing are the sole authorized Indian distributor of Selleck Chemicals.

Please visit Selleck Chemicals website *www.selleckchem.com* for the latest products and product details, or write to us at *info@prolabmarketing.com*.

Antibody Services

GenScript
The Biology CRO

❖ Best guarantees in the Industry

- For Antibody product generated in any host using any qualified antigen, we guarantee ELISA titer 1:32,000 or better.
- For Monoclonal Antibody product generated in any host using any qualified antigen, we guarantee two positive clones.
- For both Polyclonal and Monoclonal antibody product generated using qualified protein antigen, we guarantee positive Western blot results.

From GenScript USA Inc. - USA

(Price List and details on pages no. 365-391)

Signalway Antibody LLC - USA

www.sabbiotech.com

Signalway Antibody is a professional manufacturer of phospho-specific antibody products, and are committed to providing high-quality antibody research tools for life science companies, hospitals, and institutions around the world.

SAB's products cover cell signal transduction, cancer, stem cell, immunology, neuroscience, apoptosis, infectious diseases and other areas.

Signalway Antibody maintains the best standards in quality assurance and quality control that meets the highest international standards and integrity.

PRODUCT LINE INCLUDES:

- Phospho Specific Antibodies
- Methylated/Acetylated
- Monoclonal Antibodies
- Secondary Antibodies
- Blocking peptides
- CD Markers
- Tag Antibodies
- Loading Controls
- Protein and Cytokines

We, Pro Lab Marketing are the authorized Indian distributor of Signalway Antibody for the entire Indian Territory. Please visit Signalway Antibody website *www.sabbiotech.com* for the product details, or write to us at *info@prolabmarketing.com*

PRODUCT INDEX

- Antibodies - Monoclonal 618
- Antibodies - Polyclonal 619

Pro Lab Marketing is here to serve you with complete dedication to deliver top quality products in the best possible manner.

Please send us your queries at info@prolabmarketing.com

TLC Pharmaceutical Standards Ltd. - Canada

www.tlcstandards.com

TLC Pharmaceutical Standards Ltd. is an independent service company specializing in the custom synthesis of pharmaceutical reference standards for biomedical and pharmaceutical research. We supply reference standards worldwide to a client base that includes major biotechnology corporations, pharmaceutical and diagnostic companies, clinical and bio-analytical CROs, manufacturers of specialty chemicals, as well as to Hospital researchers, universities and various other research institutions.

At TLC, our strength lies within our adaptability to the growing challenges faced by the industry. We understand that timelines, quality and cost-effectiveness are crucial in giving our customers the competitive edge they need to succeed.

Quality is a fundamental and integral part of our business.
Together, as partners with our clients, we are committed to developing new and innovative ways to reduce costs and lead times, while continually maintaining the highest quality standards.

At TLC, our word is our promise. We will accept nothing less than a perfect track-record. This means that our clients must be completely satisfied with our products and performance. That is why we guarantee batch purity and uniformity and pre-approve every batch with our customers. Every compound produced is accompanied with a complete COA and supported by comprehensive analytical data.

We, Pro Lab Marketing are the authorized Indian distributor of TLC Pharmaceutical Standards for the entire Indian Territory. Please visit the TLC Pharmaceutical Standards website *www.tlcstandards.com* for the latest & comprehensive list of products and product details, or write to us at *info@prolabmarketing.com*.

Toronto Research Chemicals, Inc. - Canada

www.trc-canada.com

Toronto Research Chemicals Inc. (TRC) is a world leader in the manufacture of complex organic chemicals for biomedical research.

Today, TRC's product line includes unique and highly specialized chemicals for drug development, medical, biopharmaceutical and biochemical research. Many of these compounds are proprietary and developed in our laboratories through an innovative research and development process.

NOTE: For TRC items, COA would include the structural confirmatin of the product by spectroscopic and mass spectrometric analysis and further additional information would contain TLC conditions, H-NMR and Mass spectra conforming to structure. Further for HPLC, there is additional cost.
Most of TRC products have chemical purity >90%. The actual value would be stated on the COA. You will be informed before dispatch if the purity is less than 95%.

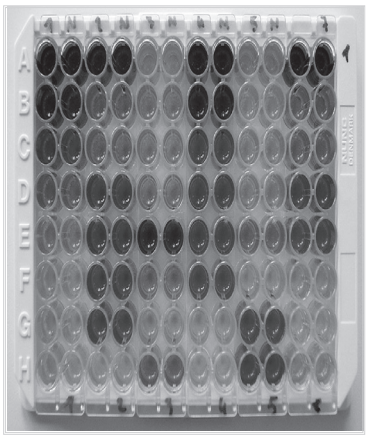
We, Pro Lab Marketing are sole authorized Indian distributor of Toronto Research Chemicals.

Please visit Toronto Research Chemicals website *www.trc-canada.com* for the latest products and product details, or write to us at *info@prolabmarketing.com*.

Toronto Research Chemicals Offer Fine Chemicals and Specialized Complex Organic Compounds

25,000 Plus Compounds on the list

PRODUCT LINE INCLUDES



- APIs, impurities and Metabolites
- Stable isotope labeled analogues
- Building blocks
- Carbohydrates and Oligosaccharides
- Nucleic acid derivatives
- Glycosidase Inhibitors
- Enzyme Activators and Inhibitors
- Sulfhydryl active reagents
- Fluorescent reagents and spin labels
- Nicotine Derivatives
- Neurochemicals
- Environmental compounds, Mutagens, and Metabolites
- Phthalates
- Retinoids
- Vitamin D derivatives
- Drugs of Abuse/ Forensics
- Phosphates
- Forensics; fentanyls, steroids, opiates, benzodiazepines, barbituates, canabinols, phenethylamines, phenecyclidines, methadones/analogues, ecgonines, tryptamines, JWH compounds.

U-CyTech Biosciences - The Netherlands

www.ucytech.com

U-CyTech is a Dutch company engaged in fundamental and applied research in the field of cytokine biology. U-CyTech develops and manufactures a wide range of innovative cytokine ELISA and ELISPOT systems for human, monkey and rodent use. The reagents for these systems are available in two different formats, providing maximal flexibility and time saving convenience: complete kits and matched antibody pairs.

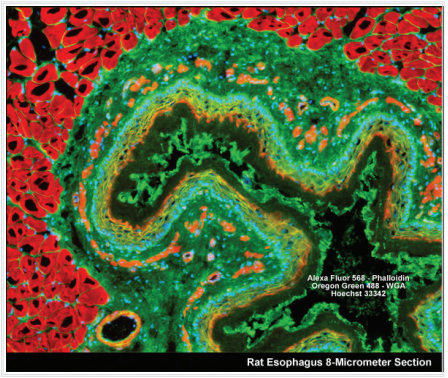
The ELISA/ELISPOT kits require high-quality reagents to obtain accurate and reliable results. This has stimulated U-CyTech to develop 'in house' a wide range of highly specific monoclonal and polyclonal antibodies directed to a wide range of cytokines from different species. The validated compatibility of these antibodies with certain high-quality ancillary reagents and plates guarantees trouble-free operation and optimal results.

U-CyTech also offers laboratory contract services. Standard operational procedures are available for the measurement of cytokines and anti-cytokine antibody levels in the circulation of human or animal subjects.

We, Pro Lab Marketing are the authorized Indain distributor of U-CyTech., for the entire Indian Territory. Please visit U-CyTech website www.ucytech.com for the latest products and product details or write to us at info@prolabmarketing.com.

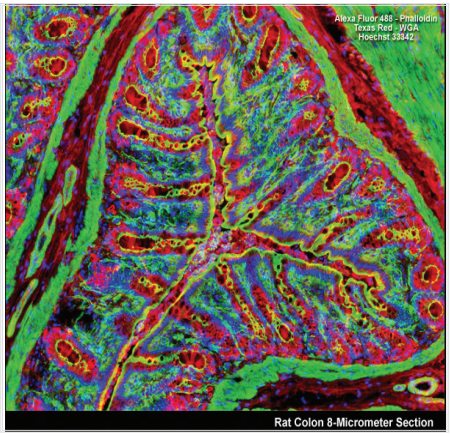
PRODUCT LINE INCLUDES

- ELISA Kits
- ELISPOT Kits
- Fluorospot Kits
- ELISA Antibody Pairs
- ELISPOT Antibody Pairs
- Antibodies
- Proteins (Cytokines)



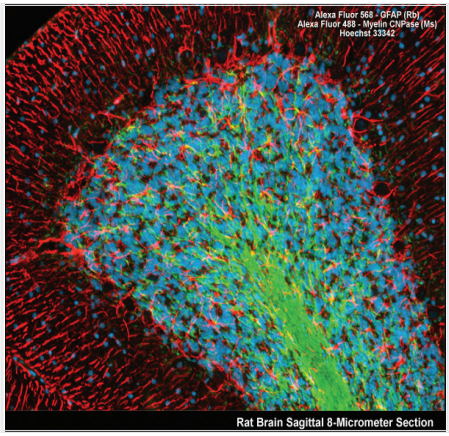
ZYAGEN

Your innovative Source of Life Science Products and Services



Zyagen - USA

www.zyagen.com



Zyagen develops, manufactures, and sells quality life science products, biochemicals, and reagents for cellular localization, expression, and quantitative analysis of genes and their protein products. The products focus on analysis of gene expression, analysis of protein expression & analysis of cell/tissues. Zyagen also offer custom research services in histology and molecular biology for pharmaceutical, biotechnology, government, and academic institutes worldwide.

Zyagen aims to simplify, improve, and accelerate research speed of the scientists and expand their research capabilities in making discoveries that improve the human condition by providing the highest standard quality research products and services with competitive price.

We, Pro Lab Marketing are the authorized Indian distributor of Zyagen to promote and market its high quality products & services in India. For product information you may visit Zyagen website www.zyagen.com or you may forward us your enquiries at info@prolabmarketing.com.

PRODUCT LINE INCLUDES

- Genomic DNA, cDNA, RNA, mRNA & Proteins- Purified
- IHC Staining Kits
- Match Sets of DNA, RNA & Proteins
- Tissue Microarrays
- Tissue Sections – Frozen
- Tissue Sections - Paraffin

Zymo Research Corporation - USA

www.zymoresearch.com

Zymo Research Corporation (ZRC) is a biotechnology company specializing in the development of technologies for DNA/RNA purification and analysis. Zymo provides high quality research tools at affordable prices.

Although historically recognized for its innovative DNA and RNA purification technologies, Zymo Research has recently received much attention for its rapidly expanding epigenetics portfolio of products. Branding themselves "The Epigenetics Company", it is Zymo's objective to develop and provide the most comprehensive set of research tools for DNA methylation analysis and epigenetics research available today. To date, Zymo EZ DNA Methylation™ family of products remain the most popular. Zymo also has many new technologies developed for histone, chromatin, and small RNA analysis and for the next era of DNA methylation detection and analysis.

We, Pro Lab Marketing are the authorized Indian distributor of Zymo Research.
Please visit Zymo Research website www.zymoresearch.com for the latest products and product details, or write to us at info@prolabmarketing.com.

PRODUCT INDEX

- DNA Purification Kits 662
- DNA Methylation Kits 662
- DNA Quantification Kits 662

Pro Lab Marketing is here to serve you with complete dedication to deliver top quality products in the best possible manner.

Please send us your queries at info@prolabmarketing.com

PRO LAB MARKETING PVT. LTD.

ORDERING INFORMATION

Place your order from anywhere in India by mail, fax or email to Pro Lab Marketing Pvt. Ltd. A-303, Ansal Chambers-1, 3-Bhikaji Cama Place, New Delhi 110066 Fax : 011-66607726, 41037803, email : info@prolabmarketing.com.

Please send your purchase order with complete address, telephone/fax nos. and email id, our catalog no., pack size, quantity and product discription.

Ordering Procedure:

We honour three types of orders

- Order placed to us in Indian Rupees.
- Orders placed to us in Indian Rupee explicitly specifying that Customer is the ULTIMATE CONSIGNEE and providing us with a valid and attested D.S.I.R. certificate and an authorization letter to clear the goods on behalf of the customer. Such order will be considered com plete only on the receipt of the firm order with the D.S.I.R. certificate and the authorization letter.
- Orders placed to one of our Principals in foreign currency. Such orders HAVE to be routed through us either as a copy of the original or the original order itself.

TERMS & CONDITIONS FOR SUPPLIES

1. **Prices*:** Prices mentioned in this price list are in Indian Rupees and are ruling at the time of printing and these are subject to change with out prior notice (due to the unforseen circumstances such as abnormal increase in prices by our foreign principals, increase in custom duty, variation in foreign currency rates, any government taxes imposed etc. which are beyond our control)
2. **Minimum order*:** Wherever minimum order condition is stipulated in the catalog, that is to be followed.
3. **Order:** Order once placed cannot be cancelled or changed because we immediately process the orders for import/synthesis as the case may be.
4. **Taxes:** VAT/Central Tax (CST)/Local Sales Tax (LST) will be charged extra. Customers eligible for VAT/CST/LST concession must submit appropriate concessional form (viz. 'C'/'D'/'H') along with each order itself, enabling us to charge concessional tax. as applicable Other wise VAT/CST/LST will be charged in full as applicable. Any other taxes applicable will be charged extra.
5. **Octroi:** Octroi and other state levies, if any, will be borne by the buyers. In the event of octroi is paid by Courier Service/Transport then that octroi amount has to be paid to the concerned Courier Service / Transport in cash, while taking delivery of the consignment.
6. **Supplies:** Supplies will be made through our authorized distributor/dealer in your area or if necessary directly by us. We reserve the right for partial supply of products ordered.
7. **Dispatch/Delivery:** Orders will be supplied on F.O.R. customer's city / Airport basis by the appropriate mode of transport up to the trans porter's godown. Carrying the material from transporter's godown to customer's site will be customer's responsibility.
8. **Payment:** Payments are to be made by Demand Draft (account payee) drawn in favour of 'Pro Lab Marketing Pvt. Ltd.', payable at New Delhi Or as direct deposit in our Bank A/c, with its confirmation to us alongwith details of particulars of such bank deposit. In the event of payment through bank, the customer has to retire documents within 10 days failing which the customer has to pay overdue interest.
9. **Damage or Loss in Transit:** Materials shall be packed with utmost care under expert supervision. Our responsibility will cease after the consignment is accepted by the carrier like Airlines / Transporters / Courier / Post Office in good condition and no responsibility is taken by the company for any damage or loss in transit.
10. **Replacement:** Return of products due to ordering error will not be accepted. Any request for replacement of products will be subject to approval of technical service department of our respective principals.
11. **Discount:** Enquires for bulk quantities are solicited from the actual users, for which special prices shall be quoted.
12. **Special Notes:**
    (i) This price list is valid only for territory of Republic of India.
    (ii) The terms of supplies are subject to Delhi Jurisdiction only and are subject to force major clause.
    (iii) All products and services listed in this price list are for research purpose only.
    (iv) Error and omissions exempted (E & OE).

Note : We have printed products / services and their prices, as available to us from our worthy principals on 1st January 2016. Since the prices are always liable to change and products are liable to discontinuation or addition by our worthy principals; customers are advised to visit the respective websites or take confirmation from us before confirming their orders.

DISCLAIMER

We have taken full care in printing the information and prices in this catalog but errors and omissions which may have occured inadvertently would be rectified at the first opportunity.

We have printed products / services and their prices, as available to us from our worthy principals on 1st January 2016. **Since the prices are always liable to change and products are liable to discontinuation or addition by our worthy principals; customers are advised to visit the respective websites or take confirmation from us before confirming their orders.**

All trademarks, trade names, logos and patent rights are the property of respective companies. We have made sincere efforts to reflect the trademarks, trade names, logos and patent rights at appropriate places in the catalogue. If we have inadvertently missed mentioning them anywhere, we would request you to point this out to us by either sending an email at ***info@prolabmarketing.com*** or via post at our address (given at the back cover) and we would correct the error in the next edition of our catalog.

Pro Lab Marketing Pvt. Ltd. does not guarantee the availability of any product whose manufacture has been temporarily or permanently discontinued by our respective principals or our authorisation / distributor agreement ceases with the respective principal company due to any reason. And in such cases, Pro Lab Marketing Pvt. Ltd. shall not be liable to any claim for such occurrences beyond its control. The above clauses would also be fully applicable where ever we are under Rate Contract with any institution / customer.

Manufacturer of Polymers, Silica and Magnetic Microspheres

MBL Life science

Bioassays & Biochemicals to Study Kinases / Phosphatases

Megazyme

Assays for Biochemical Analysis, Dairy & Wine Industries

MyBioSource.com Antibody · Protein · ELISA Kit

Comprehensive Range of ELISA Kits,Antibodies, Recombinant Proteins & Peptides

BioAssay Systems

Bioassays for Biological Fluids

DSMZ

Antisera & Controls for Plant Virus Detection

LIST BIOLOGICAL LABORATORIES, INC.

Bacterial & Fungal Toxins & Toxoids

LifeSensors

Ubiquitin Research Assays & Biochemicals

BIOTANG lab supply professional

ELISA Kits for various species

biotool.com Save Time, Save Funding

Molecular Biology Kits & Reagents

FabGennix International Incorporated

Antibodies, Kits & Reagents

IBSA

Manufacturer of Drugs & Hormone Pellets

Creative BioMart®

Bioassays & Biochemicals

FD NeuroTechnologies, Inc.

Staining Kits & Solutions
