Assessment of Aquatic Biodiversity and Taxonomy of Fisheries Resources 11 to 16 November 2019.

Survival of mankind depends on a diverse biological resources on the earth catering to the essential needs of food, shelter and clothing. The biodiversity indicates the composite nature of biota and the interdependence of one on another. The aquatic biodiversity, that include species of aquatic animals and plants supports humans in multiple ways. The decline in the aquatic biodiversity due to anthropogenic activities calls for conservation. To cater to conservation needs, the stakeholders must have adequate knowledge and skills.

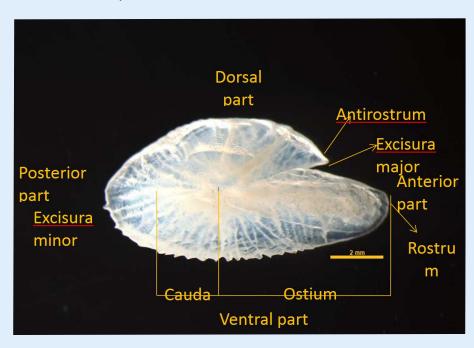

Keeping these needs in mind a training program on "Assessment of Aquatic Biodiversity and Taxonomy of Fisheries Resources" is planned for the various stakeholders like students, teacher, Govt officials, personnel from NGOs at ICAR-CIFE.

Capacity: 20 candidates

General information: Candidates are requested to make their own arrangements for lodging and boarding (accommodation, if available, will be provided on payment basis). No TA / Da will be paid by the Institute.

Course fee: Rs. 4000/- to be paid at the time of registration or as DD drawn in favour of "ICAR Unit, CIFE" payable at Mumbai

Duration: 11 to 16 November 2019.

About ICAR-CIFE

ICAR-Central Institute of Fisheries Education (CIFE), in over 50 years of existence, has emerged as a centre of excellence in higher education in fisheries and allied disciplines. The Institute was established on 6th June 1961, under the Ministry of Agriculture, Govt. of India with assistance from FAO/UNDP. It came under the administrative control of Indian Council of Agricultural Research (ICAR) in 1979. Considering the wide mandate involving education, research and extension and recognizing the pivotal role played by CIFE in human resources development in fisheries, the institute was conferred the status of Deemed-to-be-University in 1989. The institute with its core strength in quality teaching, research and training has become a brand name in fisheries higher education.

ICAR-CIFE is now placed in a new campus with state-of-the-art facilities and located about 8 km from the domestic and international airports and 20 km from Dadar railway station, a major rail terminus in Mumbai.
