

भा. कृ. अनु. प. - केंद्रीय मात्स्यिकी शिक्षा संस्थान ICAR-Central Institute of Fisheries Education

(An University Established Under Sec. 3 of UGC Act 1956)

Panch Marg Off Yari Road, Versova, Andheri-West, Mumbai-400061 (India). <https://www.cife.edu.in>

Training on ROLE OF TAXONOMY IN ASSESSMENT OF AQUATIC BIODIVERSITY AND MANAGEMENT OF FISHERIES RESOURCES

Capacity: 20 candidates

General information:

Candidates are requested to make their arrangements for Lodging and boarding. No TA and DA will be paid by the institute. Lunch can be arranged on payment basis.

Course fee:

Rs. 3000/- to be paid at the time of registration or as DD drawn in favour of "ICAR Unit, CIFE" payable at Mumbai

Duration: 21- 30 June, 2023

Programme Director: Dr. Ravishankar C.N.

Programme Coordinator:

Dr. A.K. Jaiswar

Course Coordinator:

Dr. Asha T. Landge

Dr. Shashi Bhushan

Course Coordinator:

Mr. Abuthagir Ibrahim

Mr. Dayal Devadas

Correspondence:

Biodiversity plays an important role in ecological balance and provides food and livelihood to humankind. India is one of the mega biodiverse countries and harbours a large number of endemic species. Aquatic biodiversity, especially the fisheries resources are very important as they provide protein-rich food, livelihood and foreign exchange. However, biodiversity is declining at an alarming rate due to anthropogenic factors. Thus, it is high time for conserving the biological resources before they become extinct. Knowledge on taxonomy is fundamental for addressing any biological question. Further, the studies on the biology of the species are essential for understanding population dynamics and conserving the resources. With this background, a hands on training program on "Assessment of Aquatic Biodiversity and Role of taxonomy in Fisheries Resource Management" is planned for the various stakeholders such as students, teachers and conservationists .

Declaration: I hereby declare that the information provided by me is true and shall abide by the rules and regulations of the laboratory of Fisheries Resources Management, ICAR-Central Institute of Fisheries Education, Mumbai.
