

Skill development training on “Aquafeed production technology and feeding management for sustainable aquaculture” organized by ICAR-CIFE, Mumbai during 11-15th December, 2023

A 5-day national training programme on “Aquafeed production technology and feeding management for sustainable aquaculture” was conducted by ICAR-CIFE, Mumbai during 11-15 December 2023. A total of 32 persons from 13 different states of India participated in the programme. The programme was inaugurated by Dr. Ravishankar C.N., Director and Vice-Chancellor; ICAR-CIFE and Dr. N.P. Sahu, Joint Director, ICAR-CIFE in the presence of Dr.K. N. Mohanta, Head, Fish Nutrition, Biochemistry and Physiology Division and Dr. Sikendra Kumar and Dr. Manish Jayant, Coordinators of the training programme. Other resource persons, Dr. Subodh Gupta, Dr. Ashutosh D. Deo and Dr. Tincy Varghese, were also present. At this outset Dr. Sikendra Kumar, Coordinator outlined the five-day training programme. In his inaugural address Dr. Ravishankar C.N. highlighted the importance of feed as it is the most vital and costly inputs in modern day aquaculture. He thanked the participants who came from different parts of the country and wished that this training may enhance their existing knowledge and understanding on fish nutrition and aquafeed. A training manual also realised on this occasion. Dr. N.P. Sahu delivered a talk on fish feed ingredients and aquafeed scenario in India. Dr. K.N.Mohanta in his lecture emphasised on the feeding management in biofloc and RAS culture systems. The fish feed production technology; feed testing and quality assurance were demonstrated to the trainees apart from 12 theory classes. The trainees were very much satisfied with training and thanked Dr. Ravishankar C.N. for organizing such a nice training programme.
