

Online Training Program SciCom for Smart Scholars

SciCom for Smart Scholars is a tailor-made online short course designed primarily for practicing scientists/faculty and research scholars working in NARS (ICAR/SAU/CAU/DUs) to enable them become smart practitioners and communicators of science. This one-of-its-kind, flexible and free two weeks online course is being conducted in 4 batches of 150-180 participants each due to overwhelming response between 5th May and 8th June 2020.

Title of Training Program: SciCom for Smart Scholars

Learning Mode/Delivery: Online Mode using Google Classroom/Meet & Zoom

Participants Details

Batch	Date	Participant No.
First Batch	5-18 May	135 (completed)
Second Batch	12-25 May	165 (completed)
Third Batch	26 May-8 June	190 (ongoing)
Fourth Batch	26 May-8 June	175 (ongoing)
Total		665*

*exact number of successfully completed participants can be known only after the program ends.

Of the 665, nearly 40% are females, 14% belong to SC/ST communities; nearly half of them are students (Masters & PhD) while close to 25% are scientists in ICAR, 15% are faculty from fisheries colleges and SAUs; nearly two third have fisheries specialisation, while others are with agriculture and allied subjects.
