

REPORT ON

TRANSFER OF TECHNOLOGY ON “FORMULATION FOR STRIPPING MALE MAGUR FOR RELEASING MILT”

ICAR-CIFE, Mumbai has transferred the technology called “Formulation for stripping male magur for releasing milt” through a memorandum of Agreement on 18th March 2024 to **Aqua Doctor Solutions, Kolkata, West Bengal** who will manufacture the product on commercial-scale. The technology was transferred in a non-exclusive mode. Dr. C.N. Ravishankar, Director, ICAR CIFE, and Dr. Debtanu Barman, CEO, Aqua Doctor Solutions signed the MOA in the presence of Dr. N.P. Sahu, Joint Director, ICAR-CIFE, Dr. S.P. Shukla, Officer In charge, ABI & ITMU, Dr. Rupam Sharma and Dr. T.I. Chanu. Inventors of the technology are Dr. Rupam Sharma, Dr. K.S. Wisdom, Dr. T.I. Chanu, Dr. Mujahidkhan A. Pathan, Dr. Gireesh Babu P., Dr. Sunil Kumar Nayak and Dr. Irfan Ahmad Bhat. The technology will help farmers in induced breeding of magur without sacrificing the male. Presently, the male magur has to be sacrificed and dissect out the testes to make a suspension which is used for fertilizing the eggs. The present technology will obviate the need to sacrifice males for breeding.
